

MARSHALINO JANKOWSKI

Junior Web Developer

ABOUT ME

I am a Passionate Web Developer who has a AWS CCP and a FullStack Web Development course. Proficient in HTML, CSS, Bootstrap, JavaScript, MySQL, Node.js, Vue.js, React, WordPress, and SEO. Adept at designing and implementing systems, I excel as both a team player and lone wolf. Demonstrating active listening, problem-solving, and conflict management, I bring a goal-driven work ethic and openness to change.

WORK EXPERIENCE

2022-2023

CloudZA Junior Web Developer

During my time at Cloudza, who are a South African cloud managed services provider. I was mentored and trained by a team of Certified AWS Professionals who helped me dive deeper into the cloud space. We worked and collaborated on multiple projects using AWS tools and services to design and refactor solutions for clients in various sectors such as education, healthcare as well as working with small to medium businesses

2022-2022

LC Studio Web Developer Intern

During my time at LC Studio, I took part in a learning journey which covered various technologies such as HTML, CSS, Javascript, BOOTSTRAP, VUE.js, NODE.js, MYSQL, SEO and Wordpress. While be mentored and trained by a team of seasoned senior developers who gave me the right mentorship to equip me with the tools I needed to enter the web development industry and gain my AWS Certified Cloud Practitioner

2021-2022

CX-International Customer Service Rep

In the role of Frontline Customer Advocate, I stood as the primary advocate for customer satisfaction, embodying the company's dedication to excellent customer service. Managing multichannel communication, I handled inbound and outbound calls, responded to emails, engaged in LiveChat sessions, and adeptly managed social media interactions. My goal was to provide comprehensive customer support across various channels, ensuring a seamless and positive experience for customers.
